RE: November 5, 2002 General Election

Dear Canvass Board Members,

It appears that the reported results of the November 5, 2002 are out of balance by 36 ballots. Upon comparing the polling book totals to the scanned ballot totals, a difference exists.

During scanners of ballots, we incurred minor problems with ballots sticking together. I feel that some ballots were scanned twice by accident resulting in the difference between the polling 3,624 and the scanner 3,670

If you have any questions, please do not hesitate to contact my office.

Respectfully yours,

  
Jeffrey Rutz  
Butte County Auditor
