RECOUNTS

Recounts occur when the official canvassed results of a race are within a certain margin of votes. If this margin of votes is met, the recount will proceed if requested by the necessary person(s). A recount procures a speedy and correct determination of the true and actual count of all ballots cast at an election and which ballots are valid. (SDCL 12-21-1)

If a tie vote occurs, there will be an automatic recount. (SDCL 12-21-16)

A recount is a second counting of the ballots. It does not address possible legal deficiencies in the conduct of an election. These would be dealt with in an election contest through the court system.

Recounts are governed by Codified Law and Administrative Rule.

There are seven different types of recounts. The following is a listing of the various recounts that can occur, the process to obtain the recount, and the Codified Law and/or Administrative Rules for the type of recount.

- The finance officer or school business manager shall take precautions to insure against tampering with the ballots.

Recounting of Ballots

- The recount board follows ARSD 5:02:16- for the recounting hand counted paper ballots (not optical scan ballots):
 - The recount board, before assuming its duties, shall execute the oath of office which is located in the back of this book.
 - In the presence of all persons desiring to attend the vote counting, the precinct election board or counting board shall immediately proceed to publicly count the votes received at the polls and shall continue without adjournment until the count is completed. The precinct election board or counting board may not exclude or prohibit any member of the public from witnessing any portion of the vote counting, so long as that person's conduct is not disruptive.
 - The precinct election board or the counting board shall use the tally sheets prescribed by 5:02:17:07 in the vote counting.
 - 5:02:17:07. Tally sheets. The tally sheets must be ruled by horizontal and perpendicular lines to form squares of suitable size to contain five tally marks each, four of which may be upright and the fifth crossing the others at an oblique angle. Each fifth perpendicular line in the ruling must be red, so that five squares for tally marks are contained between each two red lines. In a perpendicular column at the left margin of each tally sheet sufficient space must be left to legibly print or write in ink the names of all candidates and all questions submitted to the electors at the election, in the same order as on the official ballots used in the election. At the extreme right margin of the tally sheet there must be a perpendicular column with sufficient space to label the column at the top of the tally sheet as follows: "Total Votes."

- 5:02:16:05. The counting board shall begin the vote count by counting the ballots as prescribed in 5:02:16:06 to 5:02:16:08, inclusive. If the ballot count does not agree with the number of voters in the pollbook, a comparison of the voters in the pollbook and the registration list shall be made and any mistakes corrected. If a mistake is made otherwise, the board by majority vote shall decide.
- 5:02:16:06. Opening the ballot box. The ballot box shall then be opened and the ballots taken out, sorted so that all ballots on certain candidacies and issues are separately identified, and counted by the members of the counting board unopened, except to ascertain if each ballot is single.
- 5:02:16:07. Folded ballots separated. If two or more ballots are found folded together presenting the appearance of a single ballot, the ballots shall be laid aside until the count of the ballots is completed. If, upon the comparison of the count of the pollbook and after considering the appearance of the ballots, a majority of the counting board is of the opinion that the folded ballots were voted by one voter, the ballots shall be stapled together and endorsed as "duplicate ballot of one voter not counted."
- 5:02:16:08. Duplicate ballots. For the purpose of determining the proper number of ballots in the box, any ballots folded together determined to be duplicate ballots of one voter shall be counted as a single ballot. There are two types of duplicate ballots as follows:
 - (1) If a voter was given two or more identical ballots stuck together and voted only one of them, the voted ballot shall be counted. The election or counting board will find the duplicate ballots folded together in the ballot box with the ballot stamp on the back copy and the votes marked on the top copy; and
 - (2) If a voter was given two or more identical ballots stuck together and voted more than one of them, none of the voted ballots may be counted.
- 5:02:16:10. Unstamped ballots. In the counting of the official vote, any ballot not covered by § 5:02:16:07, 5:02:16:08, or 5:02:16:09.01 which is not endorsed by the official stamp is void and may not be counted. All such ballots shall be endorsed "unstamped ballot."
- 5:02:16:11. Separation of ballots. The counting board shall next proceed to further separate the ballots.
- 5:02:16:12. Order of vote counting. The counting of votes for each candidate shall be in the same order as the candidates appear on the ballot.
- 5:02:16:14. Scrutiny of ballots by counting board. At least two precinct deputies of the counting board of opposite political parties shall scrutinize each ballot to determine the vote on that ballot. The precinct superintendent shall break any tie on a ballot.

- 5:02:16:15. Tally of ballots. As the vote is announced, one counting board member shall make the required mark on the tally sheet in the pollbook and another counting board member shall make the required mark on the duplicate tally sheet.
- 5:02:16:17.01. Write-in votes not counted. As each ballot is being examined to determine how the vote was cast for each office, the counting board shall determine if any write-in was placed on the ballot. The write-in may not be counted as a vote but all other valid marks shall be counted as votes.
- 5:02:16:17.02. Counting imperfectly marked paper ballots. A mark that touches the circle or square on a paper ballot shall be counted as a vote; any mark that does not touch the circle or square and is not in the circle or square may not be counted as a vote.
- 5:02:16:21. Voter's intent to be determined. If in accordance with this chapter it is impossible to determine the voter's intent on any ballot or part of a ballot, that portion of the ballot shall be void and shall not be counted as to those races for which the voter's intent cannot be determined.
- All questions arising on such recount shall be determined by majority vote of such board, and at least two members of such board shall be present at all times. When only two members are present, the presence of the third member may be required for the purpose of determining any disputed question on which the two members present are unable to agree. (SDCL 12-21-23)
- The recount board is authorized to make a determination whether any provisional ballots or absentee ballots which were determined not to be countable shall be counted, and those votes shall be added to the recount tally. (SDCL 12-21-24)
- If the city or school is using automated tabulating equipment, they will follow the procedures below (ARSD 5:02:09:05):
 - Board examines each ballot to determine if official stamp has been placed on the ballot and may not count any vote on an unstamped ballot;
 - The recount board shall review ballots for proper marking procedure according to the voting instructions. The recount board shall determine the voter's intent based on the standards found in ARSD 5:02:09:22:
 - 5:02:09:22. Counting imperfectly marked optical scan ballots. A mark that touches the oval on an optical scan ballot shall be counted as a vote; any mark that does not touch the oval and is not in the oval may not be counted as a vote.
 - The recount board shall review each ballot to determine if there are any write-in votes. Any write-in vote may not be counted but all other votes for which the voter's intent can be determined shall be counted;

- The recount board shall examine the ballots reviewed by the resolution board to determine the correctness of the initial rejection or duplication. The recount board shall rule on whether each mark is to be counted or rejected according to 5:02:09:22;
- The recount board shall test the automatic tabulating equipment according to 5:02:09:01.02. The board may conduct additional tests of the equipment including a comparison with hand-counted results from a precinct;
 - 5:02:09:01.02. Test of tabulating equipment. The person in charge of the election shall conduct tests of the automatic tabulating equipment as required in SDCL 12-17B-5 and 12-17B-12. The tests shall be conducted by processing a pre-audited group of ballots in a test deck marked to record a predetermined number of valid votes for each candidate and each measure. A tally sheet shall be created prior to the machine count to fully show how the sample of ballots is marked and what the machine vote totals must be to prove an errorless count. If more than one ballot is used in the election, a test deck shall be made for each ballot that is unique in any way. The test deck(s) shall include for each office and ballot question:
 - (1) One or more ballots with a vote for each candidate and each side of a ballot question;
 - (2) One or more ballots which have votes in excess of the number allowed by law for each office and question; and
 - (3) One or more ballots which contain an undervote.

At least twenty-five test ballots shall be included in the total of all test decks. Individual test decks for individual ballots shall be of sufficient size to prove the accuracy of the system. If absentee ballots are to be received folded, at least ten percent of the test ballots in any individual test deck shall be similarly folded. The person conducting the test of the tabulating equipment shall date and sign the printout, verifying that the results of the machine's printed paper vote totals exactly match the tally sheet from which the sample of ballots was marked. The test deck(s), tally sheet, and signed printout must be secured and retained with the official ballots.

The test procedure shall include the processing of at least one ballot completely blank to verify that the machine is correctly configured according to SDCL 12-17B-13.1.

If more than one tabulating machine is to be used in the election, each machine shall be fully tested according to the ballot(s) which each machine will be used to count in the election.

In addition to these tests, any test deck may be processed any time before or after completion of the official count.

- The recount board shall count the ballots with the automatic tabulating equipment. A hand count may be conducted to verify the accuracy of the count by the automatic tabulating equipment. If any discrepancy is found, the discrepancy shall be resolved before the recount is concluded. If any vote cannot be accurately counted by the automatic tabulating equipment but can be hand counted, the hand count tally of that vote shall be added to the count by the automatic tabulating equipment;
- Any question arising on the recount shall be determined by majority vote of the recount board; and
- The recount board shall certify the new returns as printed by the automatic tabulation equipment or as hand counted as the "Official Returns" for the election by completing the Certificate of Recount as provided in 5:02:19:08. This form can be found at the back of this manual.

Recessing and Adjourning

- 12-21-26. Candidates' right to witness recount--Witnesses to recount on submitted question. Each candidate for any office, nomination, or position involved in any such recount may appear, personally or by a representative, and shall have full opportunity to witness the opening of all ballot boxes and the count of all ballots. If the recount is upon a referred or submitted question, any registered voter of the state favoring either side as to such question may be present and represent such side, and if more than one person favoring such side is present, they shall designate one of their number to represent such side, who shall have full opportunity to witness the opening of all ballot boxes and the recount of all ballots. (SDCL 12-21-26)
- Board may recess, however, the recount shall not reconvene nor ballots handled until the appointed time for reconvening. (ARSD 5:02:19:01)

Disputed Ballots

- If any such candidate or any such representative, protests the ruling of such board as to any ballot, such ballot shall be adequately identified by the board as an exhibit and segregated by the board as a disputed ballot. (SDCL 12-21-27)
- At the conclusion of the recount of each precinct, the undisputed ballots shall be returned to the ballot box and resealed, and the disputed ballots, if any, shall be certified pursuant to 12-21-33. (SDCL 12-21-31)

Completion of Recount

1. The board completes Certificate of Recount which lists both the results from the official canvass and the results from the subsequent recount. (ARSD 5:02:19:08 & SDCL 12-21-32). These forms can be found in the back of this manual.
2. The Certificate of Recount is maintained in your office.
3. The finance officer or school business manager will seal up the ballots and keep them sealed for sixty days pursuant to SDCL 12-20-31:

SDCL 12-20-31. Destruction of ballots and pollbooks--Period for which held--Pending recount or contest. The officer in charge of an election may destroy voted ballots and pollbooks from a nonfederal election sixty days following the election at which such ballots were voted. However, they may not be destroyed if any recount or contest of such election is pending. The officer in charge of an election may destroy voted ballots, pollbooks and all other election material relating to a federal election twenty-two months after the election at which the ballots were voted. For the purpose of this section, a federal election is any election to nominate or elect persons to the United States Congress or other national elected position, including national issues or questions. If a ballot is used for a federal election and a state or local election, the ballots and all other election material shall be maintained for twenty-two months. All federal election material may be removed from the ballot box if it is maintained in such a manner as to guarantee the safety and integrity of such material.

4. Any disputed ballots shall be recorded on the Certificate of Disputed Ballots (ARSD 5:02:19:09) and delivered to the person in charge of the election along with the disputed ballots. (SDCL 12-21-33) This form can be found in the back of this manual.
5. The governing board of the municipality or the school board will canvass the results of the recount.
6. If such corrected abstract by the recount board shows no change in the result as previously found on the official returns, no further action shall be taken. But if there is a change in such result, a new certificate of election or nomination shall be issued to each candidate found to have been elected or nominated as the case may be, which certificate shall be signed by at least two members of such board, and shall set forth the nomination or election of such person as to such office or position. (SDCL 12-21-37)

Additional Information upon Recount Completion

- Any certificate of nomination or election issued under the provisions of this chapter shall have the effect of and shall be recognized as superseding and rendering null and void any certificate of election or nomination previously issued. The holder of any certificate of nomination or election issued under this chapter shall have the same identical rights as if he held the original certificate of nomination or election and no recount had been had. (SDCL 12-21-41)

- The determination, as provided in this chapter, of a corrected and changed result upon a recount as to any referred or submitted question shall have the effect of superseding and rendering null and void the result as found upon the original canvass. SDCL 12-21-42.

- When a tie vote between candidates is found to exist after a recount has been performed, it shall be the duty of the person in charge of the election to fix a time and place for the drawing of lots by the candidates involved in the tie vote, giving reasonable notice of the time and place to each of the candidates. Each such candidate may appear at the time and place designated either in person or by a representative, the candidate or candidates entitled to the certificate or certificates of nomination or election shall be determined by drawing of lots in the manner directed by such authority, and the certificate or certificates of nomination or election shall be issued accordingly. Whenever any candidate is aggrieved by the final determination made as a result of any recount, he may have the proceedings of such recount board reviewed upon certiorari as provided by this chapter. Such review

may also be obtained as to any submitted or referred question by any voter who was entitled to vote thereon, but only with the approval of the court in which such review is asked, or of a judge of such court, which approval must be endorsed upon the petition before it is filed. The petition for the writ must be filed within five days after the filing of the recount certificate with the secretary of state or county auditor.

12-21-48. Original jurisdiction of certiorari proceedings. Original jurisdiction of such certiorari proceeding shall be as follows:

(1) Where the same involves a submitted or referred question voted upon in more than one county, or the nomination or election of presidential electors, United States senator, representative in Congress, member of the Legislature, or any state or judicial officer, in the Supreme Court;

(2) In all other cases in a circuit court of a county which includes the locality where the election or some part thereof was conducted.

12-21-49. Form and contents of petition for certiorari. The petition for the writ, if involving a nomination or election as to any office or position, shall denominate the candidate seeking the review as plaintiff, and shall name the candidate or candidates declared elected as defendants. If the petition seeks a review as to a determination of any submitted or referred question, it shall be entitled: "In the matter of petition for writ of certiorari as to determination of election on (specifying the question submitted or referred)." In any case the petition shall concisely set forth the nature of the election involved, the result thereof as pronounced by the official returns, the basis for and proceedings had upon the recount, the respects in which any county recount board, or other authority, is claimed to have exceeded its jurisdiction, and a brief summarized statement of the particulars in which it is claimed any county recount board, or other authority, has misapplied the law in the determination of questions concerning disputed ballots.

12-21-50. Issuance of writ of certiorari--Officials to whom addressed--Contents. If the court concludes that the facts set forth in the petition, if true, are sufficient to justify the issuance of the writ, the same shall be issued. It shall be addressed to each county recount board, and to each other authority which the plaintiff claims to have exceeded its jurisdiction, including misapplication of the law in determination of questions concerning disputed ballots, and shall command each such board or authority at or before a time specified to certify to the court all its records and proceedings with reference to such matter. If questions as to validity of any disputed ballots are involved, the writ shall command the county auditor having custody thereof to return at the time designated the sealed envelopes containing the disputed ballots in question.

12-21-51. Service of writ of certiorari--Persons on whom served. Such writ shall forthwith be served personally, or by registered or certified mail, on each county auditor as to any county where the county recount board or such auditor is claimed to have exceeded jurisdiction, and in the same manner upon the secretary of state in case the secretary of state, or the State Board of Canvassers, is claimed to have exceeded jurisdiction. Only one writ need be issued, and shall be sufficient irrespective of the number of officials, boards, or tribunals from which certification of records or proceedings may be required. The writ and petition shall also be served forthwith upon all defendants named in case the proceeding

involves election or nomination to any office or position, and upon the attorney general, in case the proceeding involves a submitted or referred question voted upon in more than one county. In any case where the proceeding involves the vote upon a submitted or referred question within a single county, the court shall in the writ direct additional service of the writ and petition on such officer or officers, or person or persons, whom the court believes might be interested in resisting the relief asked.

12-21-52. Intervention in certiorari involving submitted question. In any such proceeding involving a submitted or referred question, the court may upon good cause shown, either ex parte or otherwise, permit any officer or person desiring to be heard to intervene, either as a party plaintiff or party defendant.

12-21-53. Answer to petition for certiorari--Joint or several answer. On or before the return day of the writ, the defendant must serve and file his answer to the petition, and if there are several defendants, they may answer jointly or severally, at their option. In the case of a proceeding involving a vote on a referred or submitted question, any officer or person, on whom the writ is served, may interpose an answer, or several such officers or persons may unite in a single answer.

12-21-54. Defenses set forth in answer to certiorari--New allegations--Petition for additional writ. All defenses, either of fact or of law, must be set forth in the answer and no other pleading in response to the petition shall be permitted. Such answer may also allege matters showing error by any county recount board or boards, or other official, tribunal, or authority not covered by such petition, and pray for an additional writ for certification of additional proceedings and records relative thereto, in which event such additional writ may be granted in the same manner, and with the same procedure and effect as the original writ.

12-21-55. Insufficient certification--Further certification required. When any certification is insufficient to show adequately the proceedings had, the court may by order require further certification of records and proceedings.

Source: SDC 1939, § 16.1825.

12-21-56. Hearing on certiorari--Conference to narrow issues. Upon the returns made as required by the writ, the court shall hear the parties, and if further hearing is deemed necessary to determine the case, the court may make such order as deemed advisable fixing such further procedure as may be conducive to expeditious and just determination of the proceeding, including a requirement for a conference of all parties appearing and their attorneys designed to narrow the issues inasmuch as reasonably possible through eliminating questions as to ballots, when such questions are not seriously urged, and the offsetting against each other of ballots which are marked for opposing candidates involved, or on opposite sides of the question, and which present identical issues as to validity, and through segregation of ballots remaining disputed into classes or groups where different classes or groups of ballots present identical questions.

12-21-57. Scope of review on certiorari--Correction of errors. - (2) Forthwith upon such appeal the entire record shall be certified by the clerk of the circuit court and transmitted to the clerk of the Supreme Court;
- (3) A stay of proceedings shall be within the discretion of the circuit court, subject to review by the Supreme Court, and shall be granted only upon adequate bond with sufficient security for payment to the respondent of all damages of any kind whatever resulting from the delay, and the court shall determine the terms of the bond so as adequately to protect the respondent from such damage;
- (4) The Supreme Court may on its own motion, or on motion of any party, make such order as it deems advisable to bring about a speedy determination of the appeal, including shortening of the time for filing briefs, dispensing with printing briefs, or dispensing entirely with briefs; and assigning date for oral argument.

5:02:19:11. Oath of recount board. Before performing recount duties, each recount board member shall take an oath in the following form:

Law Implemented: SDCL 12-21-2.

5:02:09:05. Recount procedure. The following procedure shall be used in recounting any election counted by an automatic tabulating system:

(1) If a discrepancy in the number of ballots for a precinct is discovered during ballot tabulation and is not resolved at that time, the county auditor shall make every effort to resolve the discrepancy following the official county canvass and prior to the convening of the recount board;

(2) The recount board shall first examine each ballot to determine if the official stamp has been placed on the ballot and may not count any vote on an unstamped ballot;

(3) If any discrepancy remains after subdivisions (1) and (2) have been completed and the total number of ballots in a precinct exceeds the number of names in the pollbook, the ballots shall be placed in a box and the recount board shall draw from the box the number of ballots that is equal to the excess and place these in an envelope labeled "ballots drawn by recount board to justify totals";

(4) The recount board shall review ballots for proper marking procedure according to the voting instructions. Each ballot marked in a manner other than as provided in the instructions to voter and which may not be counted by the machine shall be hand counted or duplicated in the manner used by a resolution board and the duplicate counted by machine. The recount board shall determine the voter's intent based on the standards found in ARSD 5:02:09:22;

(5) The recount board shall review each ballot to determine if there are any write-in votes. Any write-in vote may not be counted but all other votes for which the voter's intent can be determined shall be counted;

(6) The recount board shall examine the ballots reviewed by the resolution board to determine the correctness of the initial rejection or duplication. The recount board shall rule on whether each mark is to be counted or rejected according to 5:02:09:22;

(7) The recount board shall test the automatic tabulating equipment according to 5:02:09:01.02. The board may conduct additional tests of the equipment including a comparison with hand-counted results from a precinct;

(8) The recount board shall count the ballots with the automatic tabulating equipment. A hand count may be conducted to verify the accuracy of the count by the automatic tabulating equipment. If any discrepancy is found, the discrepancy shall be resolved before the recount is concluded. If any vote cannot be accurately counted by the automatic tabulating equipment but can be hand counted, the hand count tally of that vote shall be added to the count by the automatic tabulating equipment;

(9) The recount board shall complete the Certificate of Disputed Ballot as provided in 5:02:19:09;

(10) Any question arising on the recount shall be determined by majority vote of the recount board; and

(11) The recount board shall certify the new returns as printed by the automatic tabulating equipment or as hand counted as the "Official Returns" for the election by completing the Certificate of Recount as provided in 5:02:19:08. The Certificate of Recount shall be filed with the person in charge of the election and shall constitute the final returns for the election in that jurisdiction. If the recount involved an election canvassed by the State Board of Canvassers a duplicate original of the Certificate of

Recount shall be forwarded to the secretary of state to be incorporated into the statewide totals as provided by SDCL 12-21-39.
