The Circulator: set Fiscal assistance.

Attorney General's explanation: "Medicaid is a program, funded by the State and the federal government, to provide medical coverage for low-income people who are in certain designated categories. This measure expands Medicaid eligibility in South Dakota. It requires the State to provide Medicaid benefits to any person over age 18 and under 65 whose income is at or below 133% of the federal poverty level and who meets other eligibility requirements in federal law. For people who qualify under this measure, the State may not impose burdens or restrictions that are greater than those imposed on any other group eligible for medical assistance. The State must obtain federal approval of the Medicaid expansion coverage set forth in this measure. Additionally, the South Dakota Department of Social Services must pass rules to implement this measure."

Fiscal Note: "Based on eligibility requirements and income methodology set in federal law as of September 2020, the proposed expansion of Medicaid benefits could result in an additional 42,500 eligible individuals. The total annual estimated cost of Medicaid expansion is $301,800,000 with the state's share of that cost being up to $20,800,000."
